Gebr. Pfeiffer, Inc. Offers Pre-Assembled Mill Services

The photos, on the right, show a recent MPS 3070 BK coal mill which was pre-assembled at the manufacturing facility where each fitting is marked appropriately before being delivered on-site for erection. The mill pictured will be delivered and installed at a coal grinding plant in the United States.

This process enables you to:

- Reduce site assembly time,
- Eliminate manufacturing discrepancies,
- Ensure the accuracy of matched fittings,
- Receive all fittings pre-marked,
- Keep construction costs down,
- Benefit from a smooth erection process.
