

**GEBR. PFEIFFER, INC.**  
Progress is our tradition

## PRESS RELEASE

### New Project Announcement – September 2008

Gebr. Pfeiffer, Inc. was recently awarded a contract through Hatch Ltd. to supply a new MPS 250 BK coal mill for the Fénix ferro-nickel project of Guatemala.

Hatch Ltd. provides process and detail engineering, project management and related services to the Mining and Metals, Energy and Infrastructure industries. The global corporate office for Hatch is located in Mississauga, Ontario, Canada. Hatch Ltd. conducted the initial feasibility studies and basic engineering services and will provide full engineering, procurement, and construction management (EPCM) services for this project.

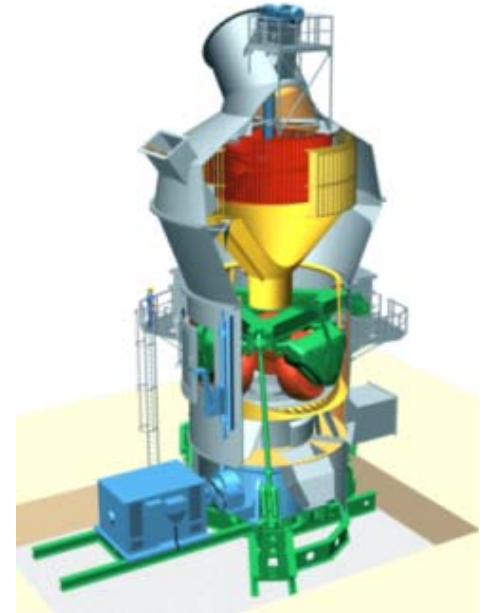

Gebr. Pfeiffer, Inc. of South Florida, is a subsidiary of Gebr. Pfeiffer AG, with headquarters in Kaiserslautern, Germany, and a staff of over 400 employees worldwide. By developing specialized equipment for grinding, drying, separating, hydrating and calcining applications, Gebr. Pfeiffer, Inc. is able to offer superior products and services to their customers located throughout the North, Central and South American markets.
